

DAIKIN
AIR INTELLIGENCE

FIT

A revolutionary side discharge system
that won't compromise on comfort.
The **Daikin *Fit*** system offers solutions
when a traditional cube style cannot.

Driven by **AIR INTELLIGENCE**

Air is essential to our existence and Daikin's role and responsibility in enriching it continues to expand. Daikin is devoted, with unbridled passion, to overcoming the ever-evolving challenges of the air around us. Leveraging our leading, cutting-edge technologies, with a holistic focus on performance, reliability, design, aesthetics, air environment, ease of use and efficiency, we create outstanding products and system solutions to realize a comfortable and sustainable living environment for all people and all regions of the world.

This is **AIR INTELLIGENCE**
and this is what Daikin is about.

DESIGNED
TO FIT

COMFORT

Today, the air is perfect. Perfect temperature. Perfect humidity. Perfectly clean and fresh, like just after a rainstorm. And the only thing more perfect than this outdoor scenario is that it's all happening inside. Because that's where we work. That's where we play, where we sleep, where we truly live.

And that's why at Daikin, we aim to make the air inside as refreshing as the outside. Better comfort. Better control and efficiency. Better quality. So you can create your own unique ecosystem. And everyday is perfect.

Inside and out.

Elevate your comfort expectations

HVAC systems are smart systems that implement cooling, or heating, in accordance to your desired set temperature and maintains it in every season – when the set temperature is reached, non-inverter systems will automatically power off causing the temperature to rise. When the set temperature is reached again, the unit will re-operate to condition the air. The Daikin *Fit* system is an Inverter unit which runs continuously but adjusts the compressor's speed to meet the demand. Because it maintains the temperature consistently, your home will no longer feel too hot or too cold.

By continuously running at low energy conserving levels, the air is consistently filtered, the Daikin *Fit* system will help drastically improve your comfort level by controlling humidity, as the air passes through the coil, it removes moisture and keeps you (and your home) from feeling muggy.

Rest, relax, repeat

Undesirable operational sounds often accompany non-inverter systems, especially in start-up operation. These sounds can become a nuisance in yards or when the system is near a window. With the ability to operate more consistently, at variable-speeds, the Daikin *Fit* system can help bring additional acoustical comfort to any environment (inside and out).

Daikin DZ14SA (Non-inverter): **73 dB(A)**

Daikin *Fit* (inverter) system: **56 dB(A)**

Filtration your home needs and your family deserves.

Go beyond just merely heating and cooling the air in your home, to providing clean indoor air to your family. According to The Environmental Protection Agency (EPA)¹, it's possible for the air inside your home to be up to five times more polluted than the air outside. With the new Daikin *One* premium air cleaner, protect and prolong the operation and efficiency of your system while delivering improved indoor air.

- » The new Daikin *One* premium air cleaner (DV15) is a MERV 15 media filter that removes more than 85% of particles down to 0.3 microns*
- » Helps remove formaldehyde and ozone

SPACE

Your comfort shouldn't be defined by your space

Going beyond the limitations of the traditional HVAC box

Your home is unique, just like your comfort needs. Although traditional “cube style” systems have been providing comfort for years, they can be cumbersome for certain spaces. The compact size of the Daikin *Fit* system now offers you a solution so you no longer have to compromise.

- » Perfect for homes with limited installation space
- » Can be ground or wall-mounted to free up additional (valuable) space where it matters most
- » Slick and slim profile - ideal for zero lot line homes and/or locations, patio, terrace, roof, and multi-story locations that would typically require a crane to install

BUDGET

More time to spend on the things that matter

If you're like most families, you want to be comfortable and save money at the same time. When you purchase a Daikin *Fit* system, you're investing in state-of-the-art HVAC technology developed to help you meet budget and efficiency goals.

- » Up to **18 SEER**
- » Up to **10.0 HSPF** (for Heat Pump)
- » Inverter (variable-speed) technology
- » Premium indoor unit options
- » Outstanding warranty* and support

*Complete warranty details available from your local dealer/contractor or at www.daikincomfort.com.

Compressors are the heart of your heating and cooling systems. As the single most energy consuming part of a system, it is important to understand that not all compressors are created equal. Traditional systems use single speed or dual-speed compressors, while the Daikin *Fit* system is equipped with revolutionary Daikin inverter (variable-speed) technology.

Like a car operating on cruise control, an inverter carefully controls the heating and cooling power generated by the unit. This minimizes temperature fluctuations, reaches the temperature set point faster after an extended period of interrupted use, and provides continuous cooling and heating comfort. Inverter HVAC Systems can save up to 30% energy compared to non-inverter HVAC systems.

**ELECTRICAL
CONSUMPTION**

Space-saving.
Efficient.
Affordable.

Daikin *Fit* Features:

- » Up to **18 SEER** / Up to **10 HSPF** (for heat pump)
- » **Inverter (variable-speed) Compressor** – Ideal indoor comfort and efficiency
- » **Low operational sound levels** – Reclaim outdoor space
- » **Quiet-mode** – Provides enhanced acoustical comfort
- » **Blue Fin Corrosion Coating** – Long condenser coil life and reliability
- » **Swing Compressor** – Quiet and dependable
- » **Side panel access** – Ease of service for annual maintenance
- » **Compact and lightweight** – The trunk style outdoor unit is perfect when installation space is limited

BACKED BY A 12-YEAR PARTS LIMITED WARRANTY* AND A 12-YEAR UNIT REPLACEMENT LIMITED WARRANTY*

* Complete warranty details available from your local dealer/contractor or at www.daikincomfort.com. To receive the 12-Year Unit Replacement Limited Warranty and 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

Heat Pump Unit Features:

- » **Intelligent Defrost Mode** – The outdoor unit will enable this mode to help prevent frost/ice from building up in cold climate conditions. It will also help with longer heating operation time for additional comfort for occupants (compared to HVAC systems without this function).
 - A selectable defrost backup heat option, when turned off, will lower power consumption during defrost.
- » **Advanced water-shedding drain pan** – engineered with multiple drain holes and channels to help provide effective water shedding.
- » **Hot start technology** – When the heating operation starts or when the unit changes from cooling to heating there is no cold draft released into the room.

Dedicated.
Specialized.
Professional.

Daikin *Comfort Pro*.

Those 3 simple words can offer you comfort like you've never experienced. The words mean that the contractor you invited into your home is a highly-qualified and continuously trained professional who will quickly, efficiently, and effectively help to solve any of your indoor comfort needs.

All Daikin *Comfort Pro* contractors seek to achieve the highest levels of customer service, business integrity, and technical competency. These range from maintaining an excellent rating with their local Better Business Bureau (BBB) to taking continuing education classes on how best to install and service Daikin brand products. To retain this status, Daikin *Comfort Pro* contractors must deliver their best abilities to each and every customer, year after year.

If, for any reason, the Daikin *Comfort Pro* has not met your expectations within one year of your equipment or system installation, please contact the installing Daikin *Comfort Pro* and ask them to honor the Daikin Comfort Promise. The Daikin *Comfort Pro* will return to your house to resolve any issues that you have with your installation at no cost to you.

Daikin has held a strong commitment to quality, service and innovation since our inception. It is this commitment that has allowed us to become one of the largest manufacturers of HVAC systems and refrigerants in the world.

TAKE COMFORT IN OUR FINANCING OPTIONS

Financing for your Daikin Fit system is available via EGIA.

For more details and enrollment information, visit www.egia.org/daikin or call **888-691-0387**.

Daikin understands that you expect to enjoy years of uninterrupted service from your home comfort system. By

including an AsureSM Extended Service Plan you can have peace of mind knowing that in the event of an equipment failure, Daikin will pick up the cost of the repair. For only pennies a day, your system can be protected from the unplanned cost of a service call and from the increasing cost of service over the life of your equipment.

- » No unexpected repair bills
- » Prompt service provided by an authorized AsureSM Dealer
- » All repairs performed with Daikin authorized replacement parts
- » No pre-authorization required
- » No out-of-pocket deductible

These benefits mean that you can count on staying cool in the summer and warm in the winter — an AFFORDABLE benefit that adds VALUE over the life of your home comfort product.

Contact your local Daikin sales representative or local contractor for more information on current extended service plans that are available to you.
