

# The first smart thermostat to offer full two-way communications with Daikin HVAC systems

The Daikin *One+* smart thermostat is an intelligent home air controller from the world's leading heating, ventilating, and air conditioning (HVAC) manufacturer. It is a cloud-connected hub of sophistication, integrated for controlling temperature, humidity, and air quality.

1 **The high-resolution color touch screen display** is protected by the same toughened glass used in smart phones.

A number of screen savers are available, including this analog clock.

2 **The anodized aluminum bezel and dial** are precision manufactured. The surfaces have a fine bead blast with a warm hued anodized finish. The dial rotation is extraordinarily smooth because it rests on a bearing assembly typically found in precision instruments. A switch behind the dial enables users to return to the home screen from any menu with a single tap.

Turning the dial changes the temperature set-point.

3 **An integrated WiFi radio** connects to the internet (via a home router) to the cloud and on to the homeowner mobile application. The Daikin cloud will also seamlessly integrate with open smart home architectures, including *Amazon Alexa* and *Google Assistant*, enabling consumers to effortlessly use features such as voice control.

4 **A thin LED light strip** sits flush within the bottom surface and runs from edge to edge, delicately illuminating the wall beneath. Emitting a soft emotive glow, the light strip indicates the current system mode: red-orange for heating, blue for cooling.

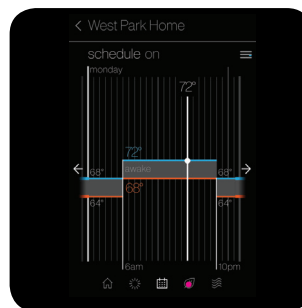

5 **Built-in bubble level** aids professional installation.

The **home screen** displays the current temperature, the current system mode, and icons leading to each of the top level screens.

The **adjust screen** displays the current temperature on the left and set-points on the right. Change the set-points by dragging them or by turning the dial.

The **schedule screen** displays upcoming set-point changes and scheduled times. It also offers access to edit mode, where you can adjust the schedule.

The **away screen** displays energy saving set-points. Energy saving can be invoked manually or automatically when the mobile app recognizes everyone is away.

## The One for Connectivity

The Daikin *One+* smart thermostat is a cloud-connected hub of sophistication, designed for controlling temperature, humidity, and air quality. With a variety of connectivity options, there's a comfort solution for every project and customer.

### COMPATIBLE EQUIPMENT

Air Conditioners	DX20VC, DX18TC, DX16TC, Daikin Fit (DX17VSS)
Heat Pumps	DZ20VC, DZ18VC, DZ18TC, DZ16TC
Gas Furnaces	DM97MC, DC97MC, DM96VC, DC96VC, DM80VC, DC80VC
Air Handlers	DVPEC, DVPTC, MBVC

## Daikin *One+* Specifications

### Technical Specifications

Analog dial  
Capacitive touch screen  
Backlit, 3.5 inch MVA TFT LCD display  
Bi-directional communications protocol for controlling HVAC system  
Bubble level (to aid installation)  
640 × 480 pixels × 24 bit RGB (full color screen)  
Light pipe indicates heating or cooling  
WiFi

### Dimensions

Length: 6-3/4 inches  
Height: 3-3/8 inches  
Depth: 1-3/16 inches  
Weight: 10.5 ounces

### ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
